Town of Lake Pleasant and the Lake Pleasant Volunteer Fire Department, State of Emergency agreement made

January 2026

This agreement was made between The Town of Lake Pleasant and The Lake Pleasant Volunteer Fire Department

When there is any kind of a state of Emergency the Town Supervisor will call the Fire Chief of the fire department to advise what the emergency is and we will meet at Town Hall with the Highway Superintendent to work out a plan.

The Supervisor has a current emergency call list for residents in Lake Pleasant.

If the emergency is in need for the Village to help, it is up to the Lake Pleasant Highway Superintendent to contact the Village Highway Superintendent and the Lake Pleasant Fire Department to contact the Village Fire Department if forces are needed.

If needed, we can move the command center to the fire house depending on the emergency.

The fire house has a generator and a radio system which would be tied into the County Sheriff's office and Peter Weaver has a Ham Radio System in place there.

Depending on the type of emergency, the firemen can go door to door checking on our vulnerable folks.

The fire department also has two generators on site for emergency situations.

This plan is an agreement between the fire department and the town of Lake Pleasant when the emergency is not severe enough and does not require our current Emergency operations plan with the Town and Village.

Depending on the State of Emergency, this is not a replacement for our Town/Village Emergency Operations Plan, Response Procedures, and Resources which was last Revised 5/22/2019.

Betsy A. Bain,
Town Supervisor

William Wharton
Fire Chief
